

## The fastest and easiest way to compare Mortgage Insurance (MI) Rates.

### THE BASICS

Our world-class API middleware software solution integrates easily with your LOS. Simply decide where in your loan process you want MIRATES triggered and we will do all the work for you. When MIRATES middleware is triggered, it automatically pulls the risk based pricing parameters out of your Loan Origination System (LOS), sends the data pints to the nation's leading Mortgage Insurance firms for pricing then delivers them how you'd like; in a single easy to read screen dashboard for easy comparison and selection (including a pdf copy sent to your email) or MIRATES can auto default the lowest rate into your LOS. It is that easy!

### AUTOMATED STEPS

### Lenders, MIRATES will help you

- Potentially approve more loans!
- Get the best available MI rates for your borrowers!
- Avoid paying more in 'lender paid' MI fees than you want!
- Do the right thing for the consumer, improve the customer experience!

**REPORTING & BUSINESS RULES:** Our reporting tool provides an in-depth analysis of your MI trends and success rates. Our reporting tools empower you to make critical decisions about your business and can help balance risk through MI diversification, on the fly.
