

Change Management Essentials

A BlackFin Group Training Program

Training, the critical, and indispensable task your business needs to thrive in today's marketplace. It affects the overall performance and effectiveness of an organization, builds new employee skills, sharpens existing ones, enhances productivity, and increases employee retention.

Delivered by credentialed ATD Master Trainers, training sessions with the BlackFin Group are designed to achieve exactly these things and unleashing the full potential of your organization.

This offering is all about the elephant in the room: Change

Learn the vastly different ways people define change in the business world, how to equip yourself with the proper mindset for effective change, and most importantly, successful strategies for managing change at your company.

Base Offering: 1 Day

Objectives/Takeaways

- An effective change management strategy, and its importance to your firm.
- Ineffective Change Management, and its costs.
- How to implement change in your organization.
- Identifying barriers to change, and how to overcome them.

Who Will Benefit

- Executives
- Managers
- SME's or key individuals
- Leaders
