SOLUTIONS

BlackFin Group is committed to delivering meaningful technology services and solutions that will directly impact a firm's bottom line. Our proprietary solutions are designed to effectively lower costs and deliver a better customer experience.

AFFIRM

BLACKFIN GROUP

We offer manual and automated testing campaigns designed by BlackFin resources with financial services, business, and technical expertise. Our engineers manufacture loan transactions and can tailor testing processes to meet your organization's unique business needs.

MIBESTX

BLACKFIN GROUP

Rather than working with only one or two Private Mortgage Insurance (MI) Firms, with MI Best X, lenders can now quickly compare leading MI rate quotes for each loan transaction, ensuring their borrower(s) the best MI rate quote available in the market each and every time.

SERVICE STANDARDS

BlackFin Group is not your ordinary consulting firm. We believe in transparency, measuring success based on client satisfaction, providing world-class service, and expert resources to support your teams' success. Our team is passionate about leading our industry in innovative, transformative thinking, and turning those strategies into measurable benefits for our customers.

Client engagements may vary from analysis, to advisory, or doing the heavy lifting to implement your business strategy or technology initiative. Our team of consulting experts are veterans of the "front line" and are trained to deliver successful execution of a client's strategy. We understand your challenges and can play a key part in the design, build, and implementation of your strategic initiatives. We partner with our clients from start to finish to meet their needs and achieve their ROI. Our community of clients include regional, state, and community-banks, credit unions, and independent mortgage bankers.

"BlackFin is a trusted partner in our Lending Practice. We rely on them for industry research and insight."

- Chris Berg, InRule Director of Product Strategy & Design
